

The new
Reference.

ELAC Debut Reference

Improved High Frequency Response

A newly developed waveguide combined with a more open grill design enhances upper high frequency response.

Enhanced Bracing

A new full perimeter brace that joins the top and the side panels significantly lessens cabinet vibrations, reducing cabinet coloration.

Cast Chassis Woofer

Our new cast chassis woofer provides improved stiffness for both strengthening the front baffle and minimizing chassis resonances.

Building on the iconic status of ELAC's Debut Series, a new Reference line emerges for our exclusive dealers.

The Debut Reference brings significant acoustical and visual advancements. Designed to blend with traditional or contemporary styles.

Debut Reference sounds as great as it looks!

The new Debut Reference series matches fresh visual elegance with remarkable sound to bring you what promises to be a new classic in ELAC's lineup.
